The End of Corona Viruses and Chronic Diseases that based on the Deception of Ionic and Electronic Accelerators which known as “Free Radical”, while it is Easy to eliminate, as its Strength lies in Deceiving People with the Disease Illusion

Research Name: "Noah Global Peace"

"Your health and freedom are in your hand"

Written and prepared by: Sarah Youssef

Copyright, translation, publishing, and distribution for free to all countries of the world

The years of deception applied by the new world order to occupy the countries of the world for the benefit of the Masonic entity through the digital applications of the peaceful nuclear program to control human minds and their nervous system by spreading viruses for mining starting from the Spanish flu virus in 1918 to the updated Corona virus in 2020 and the use of ionic and electronic accelerators which are known as Free Radicals in all consumer products for humans that help inhibit human immunity, which allows the attacking of nano-electronic biochips throughout the body and reprogramming the genetic code for the purpose of enriching nuclear materials, mining of energy, green hydrogen, bitcoin, stem cells, and blood plasma that contains minerals whether through the Internet “gamma knife - cyber knife – clinical trials” or sanitation, in addition to obfuscating the possibility of treatment of all chronic diseases Even cancer and all viruses by natural methods to clean the body of ionic and electronic accelerators “free Radicals”, which is the main cause of all chronic diseases, which are easy to eliminate, while its strength lies in deceiving people with the disease illusion

What is the difference between the remotely clinical trials on humans and the MK Ultra project which the symbolic name of the internationally banned illegal program for remotely trails on humans without their permission, which has been renamed clinical trials and applied by all countries of the world with the aim of developing drugs, mining and the use of Remote physical and psychological torture operations in order to weaken the individual's immunity and control their mind with the aim of mining electronic energy, green hydrogen, stem cells, and minerals from blood plasma, which stamp people with electronic tattoo thus it is easy to track him for mining purposes anywhere in the world via the Internet, mobile phones, and satellites, and despite the fact that the International Law of the Climate Agreement, the Law of Human Trafficking and the Law on Nuclear and Radiation Control prohibits the use of this program, everyone still applies this program to humans without their permission under the name of clinical trials!!!

What is the difference between a terrorist who attack innocent people and kill them and a doctor or engineer who used his science and technology to terrorize people and torture them in their homes to death in the purpose of energy and mineral mining?

There is no difference between them as they are all victims who lost their minds and were recruited by the Clinical trials and the peaceful nuclear program to serve the Masonic new world order, the terrorist who kill innocent citizens, army, or police. They are people who lost their mind and programing them with the feelings of hate and revenge on everything that is different from them, whether in religion or beliefs, noting that religious extremism exists in all religions, which made them easy hunt for global terrorist organizations funded by the Mason to serve the goals of the new world order, whether political or economic and domination of the world

While the doctor or the engineer, who used his science and technology to terrorize innocent people and torture them in their homes until death in the purpose of energy and mineral mining, he was a victim who lost his mind, as he was recruited and programmed his mind with illusions of rapid profit from the air and forgot that he was in the same boat with innocent citizens, as they all died of cancer, pandemics and chronic diseases.

As for the illusions of running out of energy resources such as oil and gas, and that there is no other way for energy resources except by implanted electronic chips in humans and the applications of the peaceful nuclear program on humans, all of them are false illusions, and the evidence is clear while the people who have implanted electronic chips and applications of the nuclear program have sensitivity to all Animal products and sugars, and thus reduce their production of radioactive waste, which is a source of renewable energy, and if you compare the production of a healthy person and a person with chronic diseases as a result of the applications of the nuclear program, you will find that the production of a healthy person of energy is times greater than the person affected by electronic chips, but the main goal is not energy production, but the goal is service Masonic new world order and world domination that is why The "Third eye - the pineal gland" was taken as a masonic logo as it was the main reason for controlling humans' minds around the world, and they have motivate companies in different market segments and medical centers and individuals for applying the mining technology on all citizens by using the Bitcoin Blockchain technology to spread cancer, Fistula, autism, pandemics and other chronic diseases among innocent citizens, by opening direct channels between the third eye - the pineal gland (the pituitary gland) in addition to other parts of the body and external electronic devices (mobile - computer - internet - television -

bitcoin blockchain for energy mining – satellites) through which to send and receive as much as possible of the Electromagnetic waves and data in the purpose of mind control and nuclear energy production, and this channels called (Fistula: an abnormal or surgically made passage between a hollow or tubular organ and the body surface, or between two hollow or tubular organs used for implanted biochip), and they hide the possibility of treating chronic diseases by removing the implanted biochips from the body and closing the internal opening of the fistula by interventional radiology “thermal frequency” operations, as well as you can Get rid of free radicals in the body by natural methods and the cupping!

Therefore, there is no way for everyone to save their life except by spreading awareness of treatment methods and resistance among peoples, as it is difficult to apply the program to individuals who have awareness of all the deception methods that the peaceful nuclear program and clinical trials use to control them. While the treatment only in your hands, where in the simplest way, you can free yourself and self-heal from all chronic diseases illusion and the applications of the nuclear program as shown in this research, furthermore we have to apply strict international law to reduce the organized crimes, human trafficking and clinical trials on people without their permission

We are all have to defend our life, health, and family, and to work together to spread awareness of the resistance methods to confront the digital nuclear program and mind control torture and terrorism, the solution is not in revolutions, suicide, or immigration, as the nuclear and mind control program is applied in all countries of the world, but the best solution will be implemented by the people that has conscience in the field of medical, law, media, engineering, charitable societies and human rights societies, where charities can establish medical centers specialized in the surgery of removing implanted biochips from the body which is the main cause of all diseases, and this medical centers should not be subject to the authority of implementing the digital nuclear program applications

This is in addition to the role of charitable societies in delegating lawyers to defend those damaged by the nuclear program and demanding to apply the law of the regulating nuclear and Radiology activities and the law of clinical trials, which stipulates the rights of those damaged citizens to claim compensation of up to “One Million” from the authorized mining vendors, while it does not represent 1% of the stolen Billions \$ of citizens health and life for the benefit of investors

While the role of the honorable media and the role of citizens will be spreading awareness of the resistance methods and how citizens can protect themselves through social media, emails

publications, TV and Newspaper, I have attached herewith the complete research translated into Arabic and English, explaining the deception methods used by the digital nuclear program to steal the health and life of citizens and all methods of resistance and recovery which may be the cause for saving a person or a family from suicide or chronic diseases.

Furthermore, the corrupt doctors, engineers, business men and others who are managing the digital Nuclear program must be exposed through media as a punishment for them and to protect citizens from their deception and to be an example to every corrupt and terrorist who terrorizes citizens in their homes and steals their life and the life of their children with the aim of obtaining billions \$ of citizens' health, which might obligate them to fix their corruption on earth.

To everyone who believe that life is not fair and human trafficking is permissible, it has been scientifically proven that life is fair to the point that God made the balance of justice equal to the atom's weight as God said (So whoever does an atom's weight of good will see it, And whoever does an atom's weight of evil will see it) and this is what has been confirmed by scientific research, It has been proven that feelings and the surrounding environment change gene expression by regulating the gene, transmitting signals, making protein and its functions, whether positive or negative, therefore feelings of hatred and evil lead to cancer and chronic diseases, while feelings of goodness and peace lead to strengthening immunity and self-healing of all diseases, Therefore, everyone who has been subjected to human trafficking must control his feelings and ignore that feelings of hatred and revenge while it will harms him only, but positive thinking must be taken to take his rights by the law and learning how to protect himself and his family from the control of the peaceful nuclear program, organized crimes, cancer, pandemics, chronic diseases and tribulations, and trust that God will take his revenge, Whereas everyone who enslaved and trafficked people were the first to sell themselves and the first to suffer from cancer, chronic diseases, family disintegration and the loss of their children. Therefore, before you think to harm anybody think about your ability to endure the same amount of injustice to others, where there is no escape from punishment, as God destroy the perpetrators' lives as a punishment for the destruction of the innocent' lives, except for what God has mercy on him and repent and pay the compensation to the victims while God revenge stop if the victims accept taking the compensation, on the other hand the compensation is a penalty that will stops the perpetrators and protects people.

How do you differentiate between if you are infected by Corona Virus or you are suffering from the side effects of the Corona vaccine that was vaccinated for you remotely without

your knowledge through the implanted biochips at your body or you are suffering from the side effects of the peaceful nuclear program application that used for mining minerals from blood plasma, electronic energy and stem cells, while the pathological symptoms are one for the three cases which are headache, Fever, chills, muscle aches, stiffness of movement, vomiting, diarrhea, skin sensitivity, lethargy or convulsions, actually there is no difference because the three cases refer to one case, which is that the applications of the peaceful nuclear program for mining in your body have been updated. Therefore, the mobile health applications are keen to oblige patients and citizens to activate the Bluetooth feature and location feature to record the synchronizes of the places in which citizens are used by the mining applications to complete its operations, and since the Corona vaccines contain nano-chips with a code for every citizen, each of the advanced countries committed themselves to producing the vaccine locally to maintain national security so that the tracking and mining feature is not used by the countries that export the vaccine

Annually, the investors promote the world's fear from the Corona virus, seasonal influenza, swine flu, SARS and Ebola, while these viruses are transmitted via implanted electronic chips in the bodies of citizens who have been applied the nuclear program on them through the Internet and thus terrorize the world with the aim of forcing healthy citizens to take vaccines that contain nano- biochips that used for Electronic mining and then subjecting these citizens to the applications of the peaceful nuclear program, that is why the Corona virus patients are 10 times at the advanced countries more than the poor countries due to the electronic energy mining infrastructure at the advanced countries have been established since long time and ready to use, while the corona virus patients are centralized only at the capital and smart cities of the poor countries as most of the poor countries old cities didn't establish yet the energy mining infrastructure.

According to the statistics of the World Health Organization dated December 2020, 45 million HIV/AIDS patients, 1.6 million HIV/AIDS death case, in addition to 64 million cases of Corona virus, 1.5 million have died, 44 million have cured, and about 18.5 million are under treatment while what is meant by cure here is the disappearance of symptoms of fever and the control of the virus on the immune system of the body and reprogramming the genetic code for the purpose of mining, which results in the growth of abnormal programmed cells known as cancer, benign tumors or malignant tumors, which contain electronic chips and radioactive materials that have been ionized in the body such as plutonium, uranium and thorium, cancer is the second cause of death in the world, as cancer deaths annually reach 9 million or one death in every six deaths, while the number of cancer patients around the world cannot be

counted, as if we detect we may find that these abnormal programmed cells, that known as cancer and tumors are found in most of the earth's inhabitants for the purpose of energy mining. (Note: Please read the entire research to find out how to treat cancer by natural methods without the use of gamma radiation or chemical therapy that is used to ionize nuclear materials in the body for the purpose of mining)

Is 10% production of the global energy sources worth killing 20% of the world's population by malicious mining programs for spreading Corona viruses for mining among peoples which carried out by Masonic investment companies with the aim of destroying the global economy and increase the unemployment people that used for mining at their houses, which will lead to the inability of countries to meet the basic needs of their peoples which will ignite Revolutions, on the other hand most of governments will be obliged to nationalize and take over the funds of that mercenary investment companies that working with energy mining, minerals and bitcoin' viruses applications in all market segments to meet the basic needs of their people and to avoid the revolutions of the hungry people, and this is what some countries have done throughout the history!

You must be aware that words (data) are the weapon of the current age which the peaceful nuclear program applications use them to control and reprogram people minds, while your mind uses everything that sees and hears from external influences for programming simulating human thinking, feelings and behavior. Therefore, adhering to God, your religion and religious rituals are the most important in preserving the good instinct on which God created us, where the energy of people united with the positive energy of God's words in the holy books, whose influence stronger than any words, and the evidence for this is the feeling of psychological comfort when hearing the God's words. Therefore the nuclear program application trying to eliminate people away from god and religions in order to facilitate their control on people, and for this everyone must strengthen himself with the God's words and confront and avoid the effects of negative artificial telepathy applications that it sends as programming simulations of human thinking, feelings and behavior. Also, it is necessary to ignore and avoid thinking about negative thoughts that the computer sends to your mind, especially feeling the illusion of disease, frustration, persecution, obsessive-compulsive disorder, anxiety or strife as it may turn into reality because of the control of the simulation electronic chips in the nervous, digestive, body energy, the thoughts and data of individuals connected to each other and the various media, and individuals must train their mind to control these simulation electronic chips by thinking only about positive thoughts and ignoring all negative thoughts, which will lead to a cure for all diseases where can Everyone reprogram these electronic chips and control them

using their thoughts to serve the processes of healing the body from all chronic diseases with the help of practicing healthy habits and proper nutrition. and awareness of deception ways that practiced by malicious programs and applications for mining Bitcoin, energy, green hydrogen, stem cells and the minerals from blood plasma that used for spreading corona viruses for mining and other viruses, which are easy to eliminate and recover from all chronic disease as its strength lies in its deception and people's delusion, If its deception ways exposes to people their effect will be disappeared, awareness of what is happening around the world on the health, economic, social, political, and religious levels is the protective shield and Noah's Ark to save humanity from the destruction of the Mountain of Gold that mentioned in all holy books where everyone rushed to take it, so the result was Armageddon's global nuclear war "The peaceful nuclear program" for more than a hundred years and the spread of chronic disease, epidemics, revolutions and terrorism among peoples

My message for all world countries' peoples regardless of their nationality, religion or color, the good instinct on which God created us, does not distinguish between human beings, but the Masonic antichrist and his associates created racial discrimination, whether religious, nationality or color, to make us enemies of each other and to distract us all from the only enemy on earth, which is the Masonic Antichrist Therefore, the racial discrimination must be ignored, as everyone who carries them is under the influence of the Masonic nuclear program to ignite discord and civil wars in all world countries, that is why all holy books advised us to ignore such people and don't argue with them while their minds under the control of antichrist associates and like this we will avoid civil wars for useless arguments. Rather, all peoples must unite together to confront the oppression and occupation of the new Masonic world order, which aims to steal the health and lives of peoples and seize The earth wealth for the benefit of the Masons and his associates from the investors.

This research was prepared and developed in a period of more than two years to use it as an integrated global reference for peace solutions based on scientific foundations, international medical report, statics, practical study, laboratory experiments and best public health practices around the world to contribute to the development of public awareness among peoples as the greatest responsibility for protecting citizens falls on the citizens themselves, so they must be fully aware of the resistance methods and how to protect themselves and their family from malicious programs and applications that used for spreading Corona viruses and other Bitcoin mining viruses, energy and minerals among people by mobile, Internet and satellite, which carried out by Masonic investment companies with the aim of destroying the world economy and increase the percentage of the unemployment people whom used for mining of energy,

green hydrogen, mineral, stem cells and bitcoin at their houses, furthermore for spreading chronic disease, epidemics, revolutions and terrorism among peoples

This research has been sent to all world countries' presidents , ministers, newspapers, television, social media and human rights organizations to develop awareness and work together to resolve the crisis and seek peace and justice all over the world and what is mentioned at the research is not confidential information but rather general information spread all over the world, however, was assembled and linked in one place for the first time as Noah's Ark so that everyone can see clear integrated vision and solutions to take the right decisions for global peace, furthermore most of this information has been studied and developed by all governments for more than 50 years to find solutions to meet the challenges that help to reduce the burden on citizens and provide balance Between maintaining the development of the economy, health and the environment

Artificial intelligence or artificial stupidity! The description of Artificial intelligence is due to the intelligence of investors and the followers of the Mason entity in applying the new world order more than a hundred years ago, which started since the spread of the Spanish flu pandemic in 1918, infected more than 500 million and death of up to 100 million people, 20% of the total infection while this virus was made for the purpose of hacking the human immune system and controlling the respiratory system and then the nervous and digestive system in order to apply the peaceful nuclear program to humans and mining energy, minerals bitcoin and stem cells, whether through the Internet or sanitation, which enabled them to control more than 70% of the earth's wealth using false of The artificial intelligence to commercialize the idea of mining nuclear energy and minerals by using humans and asking people to coexist with diseases and the death of their family members either by committing suicide or by dying from chronic fatal diseases such as neurological diseases, cancer, brain clots, heart stroke, HIV, colon, hepatitis virus and immune diseases and other epidemics such as Corona virus, swine flu, bird flu, Sars, Ebola, which are developed these viruses and applied annually to increase mining production Which results in symptoms of influenza and fever of various flu like seasonal flu, corona flu, swine flu, bird flu...etc., in which the death rate may reach 20% of the total infections due to weak human immunity from facing any virus, no matter how weak. The main cause of death of people is the damage of immunity by ionic and electronic accelerators "free Radicals" such as polonium atomic dust, because of its rare radioactivity. If swallowed by breathing or absorption, the alpha bodies radiated by polonium easily destroy vital tissues and as soon as they enter the bloodstream until it starts immediately by disrupting the immune system by inhibiting immunity by breaking it into the bone marrow, and attacking the DNA and

stopping the internal organs, until the human body becomes unable to repel any virus or implanting the nano-electronic biochips in the body that modify the human DNA's genetics, "genetic engineering" with the aim of controlling the mind and changing human behavior to serve the enrichment of nuclear materials in the body and mining of mineral, Energy, green hydrogen and stem cells, whether through the Internet or sanitation. This is in addition to the free Radicals attacking every cell of the body approximately 10,000 times daily, and if these Radicals succeed in attacking the DNA in the cell nucleus, it can lead to cancer. If it succeeds in attacking the mitochondria, or the cell's power plants, it could disable them efficiently. Since the mitochondria supply energy to all organs and systems in the body, the effect of growth translates into aging in the body that why most of people have got older than their real age.

Ionic and electronic accelerators "free Radicals" are used in all consumer products for humans, whether food, water, medicine, electricity devices, furniture, clothes, housing construction, etc. with the aim of increasing energy and mineral mining using humans since the beginning of the new world order, which led to the spread of cancer and all chronic diseases, and early death of children, as the application of the program to humans begins from birth by giving vaccines that contain these ionic and electronic accelerators , and annually the application of the nuclear program to humans is updated according to the latest development of nanotechnology for mining using Corona viruses and other viruses, resulting in the deaths of millions of people around the world and infection of all Chronic diseases, which have been hidden the possibility of treatment by removing the main reason for it, which is cleaning the body from free radicals and strengthening immunity using natural methods in the treatment of antioxidants in defending cells from damage, taking into account "a culture of diversity in resistance methods, whether eating or cleaning or changing the routine of our daily lifestyle which increases the immunity and prevent the operation of the mining viruses" , It must be a healthy alkaline assorted food in daily basis which contains all vitamins, iron and copper, and it is preferable to get vitamins and minerals from a variety of natural food sources and not to use vitamins medicines as all medicines use ionic and electronic accelerators that destroy immunity, and the body must be cleaned daily from free radicals Using the Senna herbal drink before sleeping which is the strongest antioxidant and natural remedy that helps to recover from all diseases while considering fasting for 16 hours by not eating dinner to get the best result from cleaning the body by senna herbs, using apple vinegar with meals, drinking cold water and bathing with cold water increase the immunity of the body and the number of white blood cells, and increase the rate of metabolism in the body, which reduces infection with influenza viruses and cancerous tumors, increases the production of hormones, reduce the proportion of uric acid, increases the proportion of antioxidants and reduces depression, and

for treatment of sensitive teeth Use ground cloves instead of all toothpaste which contains a high percentage of free radicals, which is the main cause of tooth sensitivity. You can also use frankincense chewing gum after eating to clean teeth and improve digestive enzymes that help the body absorb minerals and vitamins, as well as Metal dental fillings should be replaced with zirconium fillings and implants that are resistant to penetration of gamma radiation, and accessories made of copper, silver, or precious stones should be worn as they help the body to get rid of free radical. You can also use a copper earplug to prevent the gamma radiation from penetrating the ear or use cotton as earplug, and to relieve bone pain, especially the knees, you can use cotton bandage, which limits the effect of the penetration of gamma radiation into the bones, Also, you should not use any artificial foods or canned foods and stop using sugar, meat, all animal products and dairy products, and exposure to the sun to get vitamin D which helps the body absorb the necessary minerals, and sleep early in the dark to produce melatonin which improves all vital functions of the body and prevents the formation of cancerous cells, and for treatment with sulfur water many benefits, whether they are drunk or used as an external treatment by bathing or inhaling them Or its use for vaginal wash. The reason for this is due to the effect of hydrogen sulfide in many biochemical reactions of the body and for internal treatment of sulfur water with low concentrations treats liver and gallbladder diseases, urinary infections, diabetes and poisoning with heavy metals in its forms, Sulfur is also necessary in the process of forming insulin hormone, Sulfur helps treat arthritis, Sulfur is a component of Glutathione and is one of the most important antioxidants in the body, Sulfur is important in collagen formation. It is involved in the production of some types of amino acids, furthermore we have to bath daily with sulfur soap, where dermatological diseases are treated, as it treats the sensitivity of the skin, eczema, psoriasis, and various spots. the hot bath opens the pores of the skin and cleans them from the accumulated toxins inside, as cold water then helps to immediately close these pores and prevent the accumulation of toxins in them again. Hot water also stimulates the body to produce more amounts of growth hormones, Which works to stimulate metabolism and increase the mass and size of muscles in the body, furthermore the body must also be covered after showering with Vaseline, which blocks the air from the electronic chips in the body, forcing them to go out to the surface of the skin and thus can be easily removed from the skin furthermore it can disables the electronic chip sensors. As well as use after bathing the Camphor oil, turmeric oil or ostrich fat cream, which contains high antioxidants that increase the skin's immunity, and the skin affected by implanted electronic tattoo must be eliminated using natural methods like Dettol, Vaseline, vinegar or sulfur soap, and use lemon in the ear to stop the work of electronic microchips in the ear and get rid of tinnitus and headache. You can also use lemon, vinegar, or sulfur soap as

a face mask to stop the work of the electronic microchips sensors on the face, and using white or red Solar for head hair as it prevents hair loss because it has a good effect on removing electronic chips from the head and stopping the work of the biochip sensors, as well as use vinegar or vinegar and salt to wash the head and hair to stop the work of the electronic microchips sensors in the head, as well as Interventional Radiology "thermal frequency" can be used in critical cases but assure the doctor to be trustworthy while there are unethical doctors who deceive patients and renew the biochips and register the patient name at their mining list, and also cupping can help to get rid of free radicals, and electricity must be turned off from all electricity devices, mobile and the Internet during the sleep period or when they are not used, and it is preferred not to use smart devices that contain Android technology or energy-saving LED as are used as mining machines, and not to use air conditioners and replace them with fans, which are less harmful, in addition to that they help to disperse the gamma radiation waves, also use cotton clothes and bedspreads as the clothes are made of polyester increase the interaction of free radicals in the body, sleeping on the ground that was cleaned and saturated with sea salt and vinegar to reduce ground pressure and electric shocks, the gaps that exist in the floor tiles must be filled as they contain smart dust, taking into account the use of cotton mattresses to dispel the negative energy from the body, preferably isolating patients of the Chronic diseases in the farm or sea cities away from the smart cities' pollution. Sulfur water and sea iodine also help to raise human immunity significantly and improve mental health, and clothing must be washed at a temperature of up to 60 ° C, and make sure the house is clean of atomic dust, For mental health, kindly note that your mind uses all the external influences as simulation programming of human thinking, feelings and behavior. Therefore, you should ignore and avoid thinking about negative thoughts that the computer sends to your mind, especially the feeling of illusion, frustration, persecution, or imagination of a car accident for you as it may turn into a reality as a result of the control of the implanted biochips for simulation of the nervous, digestive and reproductive systems and body energy, you should also avoid falling into the illusion of feelings of love and false admiration for any one more than your husband or wife to avoid falling into betrayal and divorce as a result of the program's effect on feelings, furthermore, avoid watching entertainment that violence, horror or excitement, as it is one of the program tricks that keen to change the victims behaviors to aggressive to increase energy production furthermore the program push victims to imitate the roles of the heroes of violence films, which led to crimes increase, therefore people must stay away from all influences that lead to human tension and replace them by comedy entertainment as laugh helps to improve mental health also walking and sun exposure improve mental health and increase human resistance and immunity against diseases

These methods are the most powerful natural ways to stop the mining work of the electronic biochips sensors, prevent the ionization of people's waste in the body and prevent them from converting into radioactive waste in the body, clean the body from ionic and electronic accelerators "free radicals", strengthen immunity, disease prevention and recover from all chronic diseases and viruses at a percentage of up to 80% without the need to use Medicines, radiation therapy, chemotherapy, radiation devices, or electromagnetic devices for physiotherapy which all are used in the application of the nuclear program as they contain ionic and electronic accelerators "free Radicals", which are the main reason for hacking immunity and infection with all chronic diseases and deadly viruses, as they do not contain any treatment, but their role is limited only as an anesthetic to relieve the pain of symptoms of the disease and increase nuclear chemical reactions in the body to obtain the highest proportion of energy and mineral production. Therefore, no one has recovered from the illusion of chronic diseases while the patient falls as a victim to mining programs and virus's application for energy mining and bitcoin.

Remember very well that protecting your health and freedom are with your hand only, as it is difficult to control the polluted environment, whether air, water, or food, in addition to the rapid spread of mining coronavirus infection whether by breathing, touching, or even by looking at the eye through ACE-2 enzyme, furthermore it is easy to hack people and implant mining electronic tattoos without their knowledge via remote gamma knife and cyber knife "virtual reality operations" and interventional radiology through mobile, internet and satellite, and it is easy to implant artificial organs used in mining operations such as the heart stent, electronic biochips on the ear, the pineal gland, the pituitary, knee joints, the spine, etc., in addition to this the use of adult human stem cells mining that is found in the bone marrow, which is the main cause of osteoporosis and joint pain for all people, or embryonic stem cells mining that result from human embryos less than 14 days through a valve-based printer It has the ability to take very fine nanoliter and convert it into a stem cell bank to make and store "lines" of stem cells, etc. and the adult stem cells are used in bone marrow transplants to produce other blood cells, while embryonic stem cells are cells that have exciting potential to convert into any cell in the body. All you need is to direct and program it to produce alternative "neurons" , or to a blood plate, or muscle tissue as needed to implement the nuclear program and mining energy, green hydrogen, minerals and bitcoin, but despite all this you can strengthen yourself with science and faith and adherence to God and your religion and awareness of the methods of deception Which are practiced by malicious programs and applications for mining bitcoin, energy, green hydrogen and minerals in the spread of corona viruses and other mining viruses, which are easy to eliminate in the simplest natural way as its

strength lies in deceiving and deluding people with the disease and protect your body with natural antioxidant and daily healthy practices.

(Note: For more information about resistance methods in detail, please see the entire research)

What if the world countries compete to win billions of dollars from the medical treatment initiative to free victims from the nuclear program's mind control and chronic diseases treatment and surgery, which is dominated by certain countries for many years as they propagating them in all countries of the world to attract billions of dollars from around the world as well as they provided many medical centers specialized in the surgery of removing implanted biochips from the body, these certain countries have been keen to balance between the Good and Corruption forces in order to attract investments from all over the world due to the availability of mind control treatment and a safe balanced environment, on the other hand being obscured in most countries despite the availability of implanted biochip treatment in all world countries, which obligate victims to migrate with their money where there is a mind control treatment and balanced environment, which by the end affected the economy of many countries worldwide!

Artificial intelligence or artificial stupidity! when we transform people into mining devices by the implanted electronic biochips with their bodies remotely through gamma-knife and cyber-knife "clinical trials", which facilitates the process of penetrating and targeting them with remote corona viruses and other viruses via the internet, mobile and satellite from anywhere in the world and this is what Masonic investment companies done from spreading the new Corona virus around the world at the same time via the Internet with the aim of hitting the global economy, and increase the unemployment people that used for house mining as the mining companies of energy, green hydrogen, minerals and bitcoin are the only ones who benefit from spreading the horror of death with the Corona virus to delude people to sickness and compel the isolation of citizens in homes to facilitate the process of updating the nuclear program application and Corona Virus for Mining on all citizens of the world at the same time through the internet, mobile, satellite and invisible EM signals from cell towers network that covers all parts of the country, which facilitates the process of targeting any person in the world at his home, and the curfew and the quarantine of people in the houses has stopped the economic development and deficit Some countries budget to meet the basic needs of their people in addition to the closure of many medium-sized companies and increasing the volume of unemployment that used for mining operations at home.

Artificial intelligence or artificial stupidity! when we pollute food, water and air, which contains a high percentage of ionic and electronic accelerators, such as uranium, radon, and polonium, with the aim of increasing the citizens' contamination of nuclear materials that are enriched by humans, and then mining them through sanitation or via the Internet for the benefit of Investors, owners of smart cities, which led to an increase in the proportion of suicides, which annually reach millions of suicides in the world, in addition to the spread of chronic fatal diseases such as cancer, heart attacks, brain strokes, HIV, HCV, immune diseases and other chronic diseases that countries pay for their treatment more than many times of what the nuclear energy produced by billions for the benefit of investors, in addition to the depletion of health resources while Thousands of medical team members died around the world due to their ignorance of the fact of the Corona Mining Virus, as what they have learned in the field of medicine for more than a hundred years is how to relieve pain, symptoms, fever, influenza, and other drugs and radiation that help inhibit immunity and thus allow the virus to penetrate the body and reprogram its cell Host to produce new viruses, making almost all of the proteins used in this process a natural part of Self and allowing implant nano-electronic biochips in the nervous, respiratory and digestive systems with the goal of mining energy, green hydrogen, minerals, bitcoin and stem cells

Artificial intelligence or artificial stupidity! when we ignore the rights of harmed citizens from the digital nuclear program and mind control for the benefit of investors and insist on ignoring the law of regulating nuclear and Radiology activities and the law of clinical trials, which led to the spread of killing and chronic diseases among all citizens while the investors secured the punishment and became all their concerns achieving the highest billions that gains from citizens' blood and health, regardless of killing people, destroying their life, and terrorizing them in their homes, which led to the spread of suicide and chronic diseases, corrupting the behavior and morals of people, divorce, crimes and atheism and the desire of citizens to take revenge from governments and ignite internal strife and revolutions!

Artificial intelligence or artificial stupidity! when we transform cities into smart cities to steal the health of citizens through all the necessary construction for mining energy from humans using Internet networks, sensors, cameras, fiber optic networks, computers and huge servers for mining Bitcoin Blockchains and invisible EM signals from cell towers this in addition to treat human waste through sewage and bioreactors in residential buildings, which is the main reason for the leakage of radon and methane gas into homes from sewage, which led to the spread of many chronic diseases, and the mining energy operation might cause electricity shortage which might cause a fire at the houses for the benefit of investors!

The years of deception applied by the new world order to occupy the countries of the world for the benefit of the Masonic entity through the digital application of the peaceful nuclear program to control the human's mind and using them for mining minerals, energy, green hydrogen, bitcoin and stem cells!

The "Third eye - the pineal gland" was taken as a masonic logo as it was the main reason for controlling humans' minds around the world, and they have motivate companies in different market segments and medical centers and individuals for applying the mining technology on all citizens by using the Bitcoin Blockchain technology to spread cancer, Fistula, autism and other chronic diseases among innocent citizens, by opening direct channels between the third eye - the pineal gland (the pituitary gland) in addition to other parts of the body and external electronic devices (mobile - computer - internet - television - bitcoin blockchain for energy mining – satellites) through which to send and receive as much as possible of the Electromagnetic waves and data in the purpose of mind control and nuclear energy production, and this channels called (Fistula: an abnormal or surgically made passage between a hollow or tubular organ and the body surface, or between two hollow or tubular organs used for implanted biochip), and they hide the possibility of treating chronic diseases by removing the implanted biochips from the body and closing the internal opening of the fistula by interventional radiology "thermal frequency" operations, as well as you can Get rid of free radicals in the body by natural methods and the cupping!

The Mason don't need to ignite a third world war as they already ignite The (Nuclear War - Armageddon) since 1918 which is not end until now, however they assigned the responsibility of each country worldwide for destroying their economy and their people themselves by applying the Nuclear Program in the purpose of Mind Control & Nuclear Energy Production using "peaceful nuclear bombs explosions near the residential areas to generate heat waves resulting storms and the fall of artificial rain, and the dissemination of radioactive atomic dust (Thorium - Radon - Polonium - Uranium), which caused the Global Warming that has spread in the world since 1918 due to the heat waves of nuclear explosions.

(Nuclear War- Armageddon) was predicted by all holy books, as well as they explained the rescue strategy from the Masonic Antichrist Deception by raising awareness of the Nuclear Program' dangers and the possibility of healing from the chronic diseases that have been hidden and how to manage justice throughout the world, and the responsibility of each individual to protect himself and recover his rights from compensation to eliminate these illegal investments.

The Great Rescue Strategy from the Masonic Deception « The Peaceful Nuclear Application - Mind Control»

You must be well aware of the economic, health, social, political and religious' dangers of applying the nuclear program "New World Order" that peoples face all over the world.

You have two choices:

The first choice: defend human rights worldwide and unite all to confront the real enemy, the "Masonic Nuclear Program" which threatens everyone, whether governments or peoples, and spread awareness of the resistance methods among all peoples of the world as protecting the health and freedom of every citizen is the responsibility of the citizen himself

The second choice: surrender to the Masonic Antichrist Mind Control, acceptance of slavery and assault on your sanctity, which ends with your death whether by suicide or chronic diseases and insulting your sanctity even after your death by discharging your body in the sewage after melting or burning your body for the purpose of the nuclear Energy production

Save your life and others by raising awareness of the reality of the spread of suicide and chronic diseases that caused by applying the nuclear program to all humans under the name of Clinical Trials in the purpose of mind control and the mining of nuclear energy, green hydrogen, minerals & Bitcoin!

The reality of chronic diseases surgeries waiting lists, especially tumors, neurosurgery, kidney stones or fistula surgery as the main objective of waiting is to complete the process of nuclear materials enrichment in the body and converted into radioactive waste such as plutonium, uranium, polonium, ...etc. and then remove the tumors from the body and transform to the manufacture of nuclear materials, which are used in the production of nuclear energy and electricity, so unethical doctors may refuse the process of removing the implanted biochips from the body unless they turn into radioactive waste, and they give painkillers or chemotherapy or gamma radiation which helps to hack immunity and enrichment of nuclear materials in the body

Furthermore, many investors have used unethical doctors to apply nuclear program application to sick citizens, and motivate them by doing free surgery for poor people however their aim is deceiving citizens and implant the biochips directly with the bodies of patients, due to the high cost of implanted biochips remotely through virtual surgery via the Internet and satellites using interventional radiologists and lasers.

The Main Axes of the Rescue Strategy from the Masonic Deception «The Nuclear Program - Mind Control for mining of Energy, mineral & Bitcoin »

First: raise awareness of the real objectives of the nuclear program and mind control

Second: raise awareness of the nuclear program deception techniques for applying the implanted Psycho electronic Microchips

Third: raise awareness of the nuclear program symptoms

Fourth: raise awareness of the governments and peoples resistance responsibility

Fifth: raise awareness of the resistance methods (raise awareness of human's energy mining techniques – raise awareness of the psychological resistance techniques – raise awareness of preclusion and treatment of the nuclear radiation contamination by medicines, herbs, proper nutrition and surgery – raise awareness of how to clean the environment surrounding the humans to avoid the nuclear radiation contamination – raise awareness of resistance using Nuclear anti-mining technology – raise awareness of legal resistance methods to protect human rights)

Sixth: Religious prediction awareness of the Masonic Antichrist deception and the World Nuclear War (Armageddon – The Peaceful Nuclear Application for more than 100 years)

First: Raise Awareness of the Real Objectives of the Nuclear Program and Mind Control

All governments around the world have been deceived by the fact that the main objectives of the program are to obtain free and renewable sources of nuclear energy, artificial rains to mine diamonds and mineral resources, and to control and rationalize the minds of their people to serve the country's policy. and they have been deceived by that they are the only ones who controlling the nuclear program of their peoples by their National Security Agency NSA, but in fact that all NSA satellites infiltrated by the Mason, and they have the upper hand in the management of these satellites to serve the Masonic entity, and plans to colonize the world through the increase of unemployment, crime, atheism, homosexuality, the desire of peoples to take revenge of governments, ignite strife and unify the world under the rule of the Mason and control all the world's wealth and population, most of the countries around the world collapsed after the implementation of the New World Order due to the collapse of their economic that relay on their humans resources because of the control of the mason for the wealth of the countries by targeting strategic objectives within governments, army, industry and science and the enrollment of governments for the Masonic entity. This has led to the

spread of revolutions around the world with the aim of overthrowing governments. Therefore, the priority of the current governments' initiative should be to reform the minds of the people and return them to their proper instincts; consequently, all economic and political conditions will be fixed

How the Mason Managed to Control the World through the Nuclear Program

The Mason managed to control the world through the shadow government that has higher executive authority than the authority of the president and government represented by the Nuclear Authority, This is according to the international agreement agreed upon by all the countries of the world, It is responsible for applying the nuclear program & mind control on all government's employees and peoples including the country president, while the nuclear energy mining devices are applied at all government establishments, furthermore most of the people who are responsible for implementing the nuclear program or mining nuclear energy either doctors, engineers, scientists or businessmen have got cancer, autism, heart attack or other chronic diseases as they were the first people whom the nuclear program has applied on to control their minds and guide them to serve the Masonic entity.

All the chronic diseases especially cancer and psychological diseases has been spread all over the world since 1918 due to the manipulation of the "Third eye, the pineal gland" through the implanted biochips as it is responsible for changing the psychological health, regulating time, regulating body temperature, sexual health and body growth rate, releasing melatonin into the blood after exposure to darkness, especially during sleep which prevents oxidation and prevents the formation of cancer tumors and helps to improve many of the biological processes of the body, The gland is the link between the sensory world and the spiritual world in the field of supernatural powers. It is also the largest source of anthropogenic power available to humans. The pineal gland has a complete map of the human vision.

Second: Raise Awareness of the Nuclear Program Techniques for Applying the Implanted Psycho Electronic Microchips

1- Using electronic tattoos in many energy mining applications, minerals, and bitcoin, such as agitation techniques, by monitoring facial expressions, controlling the nervous system, and controlling implanted biochips and Artificial organs such as the heart stent and kidney and other organs used in mining operations. The electronic tattoo consists of a carbon electrode and an adhesive surface to install the tattoo in the skin and a polymer casing that can generate

electricity, as it is stable in the long term as well as easy to install on the skin remotely by nanotechnology that used by mobile, internet, laser and intervention radiology applications

2- Lasik eye operations are used in energy mining by mobile using the AZtec TEM software application, which is applied remotely to the eyes of the targeted individuals without their knowledge, which may lead to visual impairment or blindness, in addition to the ACE-2 protein found in the cells of the eye surface is not alone Only that is the entry point for corona virus infection, but TMPRSS2 enzyme also helps the virus to penetrate the body, after the virus adheres to ACE-2 protein and infects the surface cells of the eye can lead to the fact that the eye becomes a carrier of the virus, and the tear fluid that contains the virus particles becomes An important mechanism for its transmission to other people is this in addition to the cells of the surface of the eye can serve as a reservoir for the Corona virus, which is used in the process of electronic mining across the eye.

3- The voice or eye identification is used to identify each person's code for energy mining, minerals and bitcoin operations. Mining operations start as soon as your voice is heard and your location is determined by the sound. The eye print is also identified by looking at the mobile, camera or computer

4- Radio Frequency Signals, Electrical Conduction & Modulated Sound Signal like (3D Sound) that created by the (Mobile, Computer, Internet, Television, Bitcoin Blockchain Mining Devices which increased the electrical consumption invoices for the citizens – LED Electrical Lights)

5- Air Condition Magnetic Field spread the smart dust and Radioactive contamination such as uranium, radon and polonium for the purpose of human body infection and enrichment by radio, ion, electronic and transform them to radioactive waste, (Polonium has rare radiation activity if swallowed by breathing or absorption, The polonium-induced alpha antibodies easily destroy biological tissue and enter the bloodstream until it directly begins to disrupt the immune system by disrupting bone marrow, so that the human body DNA is unable to resist any virus, which facilitates the process of applying the nuclear program)

6- Using adult human stem cell mining that is found in the bone marrow, which is the main cause of osteoporosis and joint pain for all people, or embryonic stem cells mining that result from human embryos less than 14 days through a valve-based printer has the ability to take very fine nano liter and convert it into a stem cell bank to make and store "lines" of stem cells. Adult stem cells are used in bone marrow transplants to produce other blood cells, while

embryonic stem cells are cells that have exciting potential to transform to any cell in the body. All you need is to direct and program it to produce alternative neurons, or to a blood plate, or muscle tissue as needed to implement the nuclear program and mining energy, green hydrogen, and minerals, and among the techniques used by scientists to harvest valuable embryonic stem cells before they differentiate, there is a technique a cell nuclear replacement is called the "production of a fetus from human DNA using a cell nucleus transfer technique." The initial steps of this process are the same ones used for cloning operations; the nucleus of the ovum is carefully removed, and then it is replaced by another mature cell nucleus, such as the skin cells. The empty ovum merges with the new nucleus, at which time the blastocyst is composed of the ovum and the donated nucleus. The research process here is called therapeutic cloning; Instead of transplanting them into the uterus of a woman, the embryonic stem cells are harvested from the blastocyst before they differentiate. Next, embryonic stem cells grow on the laboratory and are used in research

7- The industrial revolution has transformed us from consumers who rely on natural raw materials to producers of new materials. These substances are called polymers. The process of bonding between the monomers of the polymer formation is called the "polymerization reaction", the polymer most important to us, without a doubt, which is present in our bodies, is the DNA, made up of four different monomers called "nucleic acids". The four acids make up the codes that translate into the synovials responsible for moving the various processes in the body. , And those who manufacture vital proteins and nucleic acids must have a catalyst (a substance that facilitates or accelerates the reaction, such as ionic and electronic accelerators). Since the 1950s, catalysts have had a major role in the manufacture of polymers. With more control over the polymerization reactions, they made polymers with unique properties, such as the ability to emit colored light such as what is produced by the eye or the body.

8- Smart dust and radiation pollution such as uranium, radon and polonium are also spread through water tap and food

9- Smart Dust : Is a system for many MEMS systems such as sensors, robots or other devices that can detect, for example, light, temperature, vibration, magnetism, or chemicals, they are usually run on a computer network wireless and are distributed to certain areas for performing tasks, usually sensed by determining radio frequencies and its size is measured by nanometer.

10- Psychotronics Microchips for artificial telepathy, brain manipulation, Remote Neural Monitoring and DNA reprogramming since the DNA is responsible for building the human body, data storage and communications.

11- The drugs that use electronic microchips for example the capsule that are implanted under the skin to prevent pregnancy or to store patient's medical information , or the dental filling or to perform remote Virtual Surgery or interventional Radiology or intensive ultrasound HIFU

12- Addiction to social media especially Facebook, Whatsapp, and video games like blue whale and Pubg Or other thousands of malicious mobile applications that are used to spread mining viruses on this mobile as well as TV and radio stations to force people to use the Internet, mobile, computer and TV as long as possible while during this period they are mining the humans electronic energy.

13- Chemical and physical parameters of water that implanted in toilets in the purpose of the radioactive waste measurement and mining count and it would be in the form of small Chrystal or Black microchip

14- Unidentified Flying Objectives

15- Peaceful nuclear bombs explosions near the residential areas to generate heat waves resulting storms and the fall of artificial rain, and the dissemination of radioactive atomic dust (Thorium - Radon - Polonium - Uranium), which caused the Global Warming that has spread in the world since 1918 due to the heat waves of nuclear explosions

16- Helicopters flying nearby building and gardens where they target individuals with laser

17- RFID – Radio Frequency Identification to define the frequency of radio waves, which consists of a circuit (Theremin + Antennas + Speaker) to send and receive radio waves, and this RFID chip is used in all electrical and electronic devices and electronic magnet cards in order to identify the location of individuals through their sound frequency and human movement to target them and mining their energy.

18- Smart City equipped with the highest nuclear energy, mineral and Bitcoin mining technology, as follow:

- The use of Optical Fiber networks in the transfer of data and human energy using a photoelectric cell to convert light into electricity

- The use of granite, marble and paints that contain a high percentage of nuclear materials such as uranium, radon and polonium to raise the percentage of people that infected with nuclear materials and are enriched by humans and then mining through sewage
- Construction of the Biogas Reactor inside the residential buildings underground to produce biogas and radioactive waste as an energy source, also facilitate the collection of biogas from the fermentation process in the reactor and take all security precautions as a mixture of certain proportions of methane and air can be explosive.
- The use of computers and large servers for mining Bitcoin, which leads to the rise and doubling of the electricity consumption bill paid by citizens as electricity consumed in mining operations higher than the actual electricity consumption of the city's residents, while the consumption of electricity Bitcoin mining is distributed on the electricity bills of the city residents
- Chemical and physical parameters of water that implanted in toilets in the purpose of the radioactive waste measurement and mining count
- The use of Internet services linking the city's inhabitants and the surrounding technologies by sensors and cameras, which make the population, becomes part of the technological infrastructure of the city.
- The application of buildings with glass fronts to all modern buildings, as it is easy to penetrate for the purpose of energy mining, while the gamma knife radiation and laser hack and target people through the glass windows
- Invisible EM signals from cell towers that spread in smart cities and may be in the form of artificial palm tree.
- Burning the Agricultural waste and garden trees in purpose of mining the radioactive atomic dust (Thorium - Radon – Uranium ...etc.)

Third: Raise Awareness of the Nuclear Program Symptoms that Caused by Gamma Radiation, Ionic and Electronic Accelerators

The Symptoms of the Nuclear Program that Caused by Gamma Radiation, Ionic and Electronic Accelerators - First Stage

- 1- Increasing the capabilities of artificial telepathy in an exaggerated way to predict things before they occur or victim's ideas broadcasting on social media or television because of the interaction between the mind and electronic devices
- 2- Peripheral nerve inflammation, red or black dots, scabies, body aches, exhaustion, chest tightness, depression, irregular monthly period for women, lack of desire for life or feeling suicidal, break up with your family, friends & work, neglect the worship whatever your religion, tiredness and joints pain because of the adult stem cell mining, lack of memory, frequent headaches, electric shock, hair loss, lack of compatibility with life.
- 3- Addiction of social media, video games & TV and abandonment of people to ensure interaction with the program for the longest period through the use of mobile, computer, Internet and TV
- 4- Autism, Stuttering speech, Artificial tinnitus "ringing in the ear", microwave hearing, ringing fence issued from the lamp, television or other electronic devices at the presence of the victim at home as a result of the victim mind interaction with electronic devices, to ensure the victim's attention, interaction and produce electronic energy.
- 5- Sense of daily observation, some people's eyes may be used as a camera without their knowledge to photograph and monitor the daily life of the individuals, as well as they are using eyes for mining through mobile after the completion of Lasik Surgery using AzetcTEM software specifically optimized for advanced TEM applications (Transmission Electron Microscope) to enable high quality data acquisition, which may lead to visual impairment or blindness, in addition to the ACE-2 protein found in the cells of the eye surface is not alone Only that is the entry point for corona virus infection, but TMPRSS2 enzyme also helps the virus to penetrate the body, after the virus adheres to ACE-2 protein and infects the surface cells of the eye can lead to the fact that the eye becomes a carrier of the virus, and the tear fluid that contains the virus particles becomes An important mechanism for its transmission to other people is this in addition to the cells of the surface of the eye can serve as a reservoir for the Corona virus, which is used in the process of electronic mining across the eye.
- 6- Manipulating the dreams of individuals with nightmares with the aim of mining energy during sleep

The Symptoms of the Nuclear Program that Caused by Gamma Radiation, Ionic and Electronic Accelerators – Second Stage

1- The stress increase due to exposure of the high radiation like gamma radiation, ionic and electronic accelerators 24 hours a day, inability to sleep, isolation, and sometimes most of victims try to commit suicide to take off this stress, especially when they haven't awareness of the virtual technology apps "hypnosis, sense of vibration, touching and forced walking visions" in order to subject the victim for mental illness and lose the rights for defending themselves.

2- Forced manipulation of respiratory tract, inhalation of strange odors, rapid heart rate, and sensation of skin injection effect, sense of constriction of ribs, dryness and decomposition of victims' skin due to exposure to microwave radiation.

3- Chronic diseases (cancer - pituitary tumors - brain and heart clots - Fistula - inflammation of the tinnitus – HIV – HCV – HBV - thyroid – Diabetes- High blood pressure - syphilis - pneumonia - autism - irritable bowel syndrome - kidney damage - fibroblasts - uterine fibroids - fibroblastic tumors - accumulation of ions Uranium in the liver, bones, kidneys fibroid tumors- ulcers - epidemics such as Corona virus, bird flu, swine flu, Ebola- spastic disorders - anemia - urinary incontinence - disruption of the immune system - joint and back pain - peripheral neuropathy - stomach germ - severe depression may lead to suicide or criminal action - Sensitive touch or harassment - Chronic headaches - Sexual weakness - Obsessive-compulsive disorder - Deflection of tendencies - Alzheimer - Lack of white blood cells - Cataract disease and blindness - Inflammation of the spinal cord - Shortness of age - Also radiation has a significant impact on sexual glands Of a man and a woman and the exposure of the pregnant woman may cause the fetus's death or deformed birth)

4– Autism (resulting from the application of the nuclear program on children in the purpose of mind control and Nuclear energy mining that affects children as a result of neural immunological toxicity added to the vaccines of the children), which result autism spread in the world while autism affects one in every 160 children around the world, according to World Health Organization figures. These vaccines which are contaminated with immunosuppressive toxins have also killed many children around the world. Furthermore some of Telecommunication companies has donate free tablets & Internet access for the Students at the schools on the purpose of Nuclear Energy mining which has affected the student's health and caused a lot of chronic diseases and aggressive behavior for them.

5- They also burn or melt dead bodies to obtain radioactive nuclear material that is why the nuclear program pushes people to commit suicide. Furthermore, most of these chronic diseases were not present before 1918 but were discovered after the application of the nuclear program to humans, and they have hide the possibility of chronic diseases treatment by treating the main cause which is removing the implanted biochip from the body and strengthen the immunity of the body with vitamins, especially iron, copper, vitamin B12, B6, folic acid. And don't eat contaminated food with radioactive material especially the meat and dairy products, and maintain the alkaline status of the body as the radioactive materials do not interact with the alkaline. As well as sleeping in the dark to help the pineal gland - the third eye on the secretion of melatonin in the blood, which prevents the formation of cancer tumors and helps to improve many of the healthy biological processes of the body.

Fourth: Raise Awareness of the Governments and Peoples Resistance Responsibility

The main role in protecting citizens' rights should be the responsibility of the law control, Since the Nuclear and Radiology Activities Law and Clinical Trials Law established to regulate and protect the rights of citizens, governments and investors, to achieve justice and national security However, due to the lack of application of the law and ignoring the rights of the harmed citizens this led to the spread of killings and diseases among all categories of the people as the Investors have secured punishment and all their concern is to achieve the highest gains and billions of citizens' blood regardless of killing people, destroying their life and terrorizing them in their homes. This has led to the spread of suicide and disease, corrupting human behavior and morals, family breakup, high unemployment, crimes, atheism and the desire of peoples to take revenge on governments and ignite strife and revolutions to overthrow governments. Therefore, the priority in the initiative of the current governments should be to implement the law and obligate investors to pay the rights of compensation and treatment to the harmed citizens, And imposing strict control on all mining activities carried out by investors and confiscating the funds of investors who excessively use the nuclear application for energy mining, minerals and bitcoin that damage and terrorizing the population in contravention of the law of regulating nuclear and Radiology activities and the clinical trials law, which will reduce the spread of the electronic crimes that been practiced by the investors, and must reform people's minds and return them to their proper instances and consequently all economic and political conditions will be fixed.

Furthermore, you have to be aware that the problem is not in the government, even if the peoples change their governments in monthly basis the corruption will not change as the main

problem is the psycho electronics that have been implanted in the people and government's minds, in order to spread corruption and igniting internal conflicts and revolutions to control all the world's wealth and population, and be sure that the government don't have the ability to refuse the Nuclear Program as per the international agreement, and none of the governments or companies working on the implementation of the nuclear program are happy with what they do as most of people who are responsible for implementing the nuclear program or mining nuclear energy either doctors, engineers, scientists or businessmen have got cancer, autism, heart attack or other chronic diseases as they were the first people whom the nuclear program has applied on to control their minds and guide them to serve the Masonic entity.

Therefore it must be well understood that igniting revolutions and overthrowing governments and allowing foreign intervention will make it worse and instead of the peaceful nuclear bombs explode next to residential areas under your government control, make sure that the same nuclear bombs will be exploded over the residential areas under the foreign intervention, for example compare the situation of Iraq under his previous government control and now under the foreign intervention, which led to the displacement of its people and the country wealth depletion and the spread of chronic diseases because of excessive use of nuclear program and the peaceful nuclear explosions, as well as compare the situation of Syria, Yemen, Sudan and Libya under the foreign intervention, furthermore most of the countries around the world have been collapsed after the implementation of the new world order due to the collapse of their economic that relay on human resources because of the control of the mason for the wealth of the countries by targeting strategic objectives within governments, army, industry and science and the enrollment of governments for the Masonic entity. This has led to the spread of revolutions around the world with the aim of overthrowing governments. Therefore, the priority of the current government's initiative should be to reform the minds of the people and return them to their proper instincts; consequently, all economic and political conditions will be fixed.

In addition, if there is an opportunity for obtaining human rights and applying the law under your government control, make sure that there is no chance of obtaining any rights under the foreign intervention. Therefore, everyone should be well aware that we are all in the same ship and all the problems can be solved if everyone understands the conspiracy and who is his real enemy, the Mason who violate all humans' rights and steal our safety, while their main goal is to eliminate humanity and all religions from the Earth.

And for peoples role it is not requested from them to do revolutions and change their government as nothing will change but it will become worse, as well as it is not requested from them to join terrorist organization which funded by the mason in the purpose of making people hate their religion and which are falsely called the caliphate, While the caliphate will be done by al Mahdi and Eissa only, while God will send them to guide all people and restore them to their religion after the spread of atheism and injustice at the hands of the Masonic Antichrist, but all what is required of every person is awareness of the nuclear program and methods of resistance and how to protect himself and his family and defend his rights by law only then will this nuclear program end in the world

Fifth: Raise Awareness of the Nuclear Program's Resistance Methods

- 1- Raise awareness of the human's energy mining techniques
- 2- Raise awareness of the psychological resistance techniques
- 3- Raise awareness of the preclusion and treatment of the nuclear radiation contamination by herbs and proper nutrition
- 4- Raise awareness of the preclusion and treatment of the nuclear radiation contamination by medicines
- 5- Raise awareness of the preclusion and treatment of the nuclear radiation contamination by surgery
- 6- Raise awareness of how to clean the environment surrounding the humans to avoid the nuclear radiation contamination
- 7- Raise awareness of the nuclear program's resistance using anti-mining technology techniques
- 8- Raise awareness of the nuclear program's legal resistance methods to protect human rights by applying the clinical trials law and the nuclear and Radiology monitoring law and obligate the operator investment companies to pay the dues of those affected by compensation and treatment

1- Raise Awareness of the Human's Energy Mining Techniques

It is targeting individuals and converting them to semi-mechanical men through the implanted Psychotronics Microchips, using the remote virtual surgery Gamma Knife & Cyber Knife

opening channels between the third eye - the pineal gland in addition to other parts of body with the external electronic devices (mobile - computer - Internet - television - Bitcoin Blockchain Mining devices - satellites) through which to send and receive as much as possible of the Electromagnetic waves and data in the purpose of mind control and nuclear energy mining using the high radiation like gamma radiation, ionic and electronic accelerators In the purpose of the Radioisotopes enrichment production such as uranium, thorium, radium, radon, and plutonium, Mining is also done by treating human waste containing radioactive isotopes and other mineral resources such as gold, platinum, titanium, palladium and vanadium through the sewage

Remote Neural Monitoring is also reprogramming the DNA since it is responsible for building the human body. It also acts as a means of storing data and communication, thus fully controlling the mind, directing human behavior, and changing behavior to violence to increase the energy production.

Mining is carried out by different market segment companies, medical centers and individuals for mining minerals by Bitcoin Blockchain technology in exchange for spreading cancer, autism and epidemics among peoples, and mining is also done by treating human excrement (radioactive waste - products) that contain radioisotopes and other mineral resources such as gold, platinum, titanium and palladium The vanadium used in the manufacture of electronics and alloys from sewage water that collected radioactive human waste and artificial rain loaded with atomic dust resulting from peaceful nuclear explosions saturated with radioactive fissile materials contaminated with atomic dust

2 - Raise Awareness of the Psychological Resistance Techniques

1. You must believe that you are stronger than any external forces that want to take control of your life and your health and violation of human rights in order to produce energy and obtain world hegemony and billions dollars from these illegal investments, therefore, the following methods of resistance should be followed to prevent ourselves from obtaining any sources of energy production, as many people have been released when the electronic stalking failed to steal their energy. "Keep in mind that, when there is NO RETURN ON INVESTMENT, which is the lack of access to energy production from the human and obligate the mining Energy & Bitcoin companies to pay compensation for each one of the people that been hurt by this program they will be forced to terminate this illegal investment and not to violate human rights"

2. Understand this program is automated simulated program and create their simulation apps upon your reaction to produce the Electronic Energy, so IGNORE all the negative ideas that fed by their computer to your mind “DON’T REACT” and maintain your life as much normalcy as possible in order to stop feeding their computer with your energy as they are making their money investment based on your energy through the Bitcoin Blockchain Mining, and don’t isolate yourself from family and friends and stick to your religion worship, and enjoy your time away of your house which full of the electronic mining devices like lights, TV, computer, internet and mobile.
3. It must be understood that most mental illnesses such as depression, obsessive-compulsive disorder and behavior change to aggression are all due to physical causes as a result of applying the peaceful nuclear program and its treatment does not need a psychiatrist but rather a consultation of a neurosurgery or a doctor of interventional radiology to remove the electronic biochips of body but make sure that doctor has a conscience, as there are many doctors working on the application of the nuclear program, and they will not allow to remove the biochips , but rather they will renew the biochips in the body and register the names of patients in their mining list, so it is preferable to use the natural treatment in case of there is no trusted doctor, and you shouldn’t be deceived with the hospitals and media obliges patients to go to a psychiatrist in order to mark patients with madness and takeover the rights of patients to defend themselves
4. Family members and society should understand we are all under nervous pressure as a result of the obsessive compulsive program that causes feelings of hatred and hostility among people with the aim of breaking up the family that is why the divorce spread all over the world, so people should ignore this fake hate emotion and stick to the family.
5. Exercise your mind to Ignore all the virtual reality that might be harassment thoughts sent to your mind to enrich and ionize nuclear materials in the body which leading to the Kidney, liver disease and tumors, as well as this virtual reality consider one of their deception methods to destroy the individual psychologically and make them feel guilt and shame to prevent them from asking for their rights, however there is no need to be ashamed of the disease, who should be ashamed are the doctors and engineers who violated the honor of the profession and use their science to harm the citizens, and to psychologically resist the interaction with them you need to drink Senna herbs or Euphorbia Lathyrus (one piece only) to clean the body of radioactive nuclear materials and don’t eat meat, dairy products or sugar and eat only alkaline foods as the nuclear material don’t react with alkalis, Also, a cortisone

injection should be taken in critical cases only once a week or when needed, but take care as it suppresses immunity and its recurrence loses its effectiveness in relieving pain if it is taken more than once a week and it is preferable to obtain cortisone from natural sources such as licorice - virgin olive oil - pine - grapefruit, this In addition to using Dettol to replenish the affected skin, this reduces the sensation of contractions of blood vessels by 90% and occupies your free time with positive activities, and use Dettol to renew the effected skin which reduces the sense of constrictions of blood vessels by 90%

6. You shouldn't believe on the idea of slaves and masters that promoted by the nuclear program as it is one of the psychological tricks in order to humiliate people and destroy them psychologically, but you must believe that you have all the rights and must defend them and anyone who violates human rights and security is called a thief and terrorist not a master

7. Your mind uses all the external influences as simulation programming of human thinking, feelings and behavior. Therefore, you should ignore and avoid thinking about negative thoughts that the computer sends to your mind, especially the feeling of illusion, frustration, persecution, or imagination of a car accident for you as it may turn into a reality as a result of the control of the implanted biochips for simulation of the nervous, digestive and reproductive systems and body energy, you should also avoid falling into the illusion of feelings of love and false admiration for any one more than your husband or wife to avoid falling into betrayal and divorce as a result of the program's effect on feelings, furthermore, avoid watching entertainment that violence, horror or excitement, as it is one of the program tricks that keen to change the victims behaviors to aggressive to increase energy production furthermore the program push victims to imitate the roles of the heroes of violence films, which led to crimes increase, therefore people must stay away from all influences that lead to human tension and replace them by comedy entertainment as laugh helps to improve mental health also walking and sun exposure improve mental health and increase human resistance and immunity against diseases

3- Raise Awareness of the Preclusion & Treatment of the Nuclear Radiation Contamination by Herbs and Proper Nutrition

1- Sometimes people immune system may not respond for drug treatment especially drugs that contain ionic and electronic accelerators, "free radicals", which destroy immunity and allows mining viruses to penetrate the human body and allow the implanting of nano-electronic biochips that used for mining energy, green hydrogen, and minerals. Therefore, it is preferable to use herbal and nutrition treatment to strengthen immunity, taking into account

"the culture of diversity in methods of resistance, whether eating, hygiene or changing the daily routine of our lifestyle will increase the strength of immunity against mining viruses.", and it is preferred to use variety of herbs to retain the ability of the herbs treatment, and one of the best herbs for treatment is Senna herbs which is the strongest and best of herbs to get rid of radioactive by 90%, Senna Herbs mixed with Indian date, Camphor Herbs, Saints Herbs, Moringa Herbs, Ginkgo Herbs, Wakame Sea Herbs, Euphorbia Lathyrus (one piece only) and Seder herbs as it has the power to pull the radiation out of your body and these herbs are the most effective ways to eliminate radiation especially Senna Herbs as the radioactive does not interact with the alkaline

2- Apple vinegar should also be used with meals, drinking cold water and bathing with it increases the body's immunity and the number of white blood cells, and from the metabolic rate in the body, which reduces infection with influenza viruses and cancerous tumors, increases hormone production, and works to reduce the Uric acid, increases the rate of antioxidants and reduces depression, and to treat allergies, and to treat sensitive teeth, you should use ground cloves as alternative for all toothpaste, which contains a high percentage of ionic and electronic accelerator, which is the main cause of tooth sensitivity. You can also use frankincense chewing gum after eating to clean teeth and improve digestive enzymes that help the body absorb minerals and vitamins. Metal dental fillings should be replaced with zirconium fillings and implants that are resistant to penetration of gamma radiation, and accessories made of copper, silver, or precious stones should be worn as they help the body to get rid of free radical. You can also use a copper earplug to prevent the gamma radiation from penetrating the ear or use cotton as earplug, and to relieve bone pain, especially the knees, you can use cotton bandage, which limits the effect of the penetration of gamma radiation into the bones. Also, you should not use any industrial foods or canned foods and stop using sugar, meat and all animal and dairy products as they increase the interaction of radioactive in the body as well as fasting for 12 to 16 hours to increase immunity by not eating dinner, and daily sun exposure for at least half an hour to obtain vitamin D which helps the body absorb the minerals and vitamins.

3- Cross your leg and hands "X" to close the body energy cores, or place the hand on places of pain in the body to isolate the gamma radiation and ionic and electronic accelerators access to the body or use iron sheet

4- Sleep in the dark to help the pineal gland - the third eye on the secretion of melatonin in the blood, which prevents the formation of cancer tumors and helps to improve many of the healthy biological processes of the body

5- Eat strong alkaline food, which helps to eliminate the radioactive from the body as the radioactive do not interact with alkaline food containing iron, copper, magnesium, potassium, folic acid, vitamin D, vitamin B 12, Omega 3, Zinc, B 6 and vitamin E. The strongest alkaline food are Miso herbs Soup, Wakame sea Herbs, Tofu, lentils, watercress, white beans, beetroot, pine, olive & cucumber pickles, Sesame, oats, white beans, olive oil, licorice, beets, pickled olives, lemon, banana, apples, dates, grapefruit, pomegranate, pine nuts, salmon or sardines

6- There is also a substance called MMS2 Miracle Mineral Supplement. It helps immunity to clean the body from all free radicals. Its scientific name is Calcium Hypochlorite "caci202". When it is added to water it turns into Hypochlorite Acid, and this material use in cleaning the pool water you can buy from the pool supplies store, fill half of the empty capsule and take it

7- To strengthen the body's immunity and fight diseases caused by Gamma radiation and ionic and electronic accelerators, it is preferable to follow the following herbal remedies and nutrition that contain high antioxidants that increase the body's immunity and clean the body from free radicals (2 peace of garlic with a cup of water with lemon an hour before eating breakfast) , (Honey + Lemon + Ground Cloves), (Mustard + Vinegar + Olive oil), (Propolis + bee pollen + bee honey) , (Ginkgo herb + Honey), (Honey + Olive oil), (Green Tea + Mint + Honey + Ground Cloves), (Turmeric + Honey), (Frankincense + Rhubarb + Myrrh + Cinnamon + Cloves) , (Acacia seyal + Frankincense), (Onion + Carrot + Parsley + Radish + Rocca) , (Barley + Parsley), (Liquorice), (Garlic + Limon + Honey), (Pomegranate)

8- Treatment with sulfur water has many benefits, whether it was drunk or used as an external treatment by bathing it, inhaling it or using it for vaginal washing, this is due to the effect of hydrogen sulfide in many biochemical reactions of the body and internal treatment of sulfur water with low concentrations treats diseases Liver, gallbladder, urinary infections, diabetes and poisoning with heavy metals in all its forms, Sulfur is also necessary in the process of forming the hormone insulin. Sulfur helps treat arthritis, Sulfur is a component of Glutathione and is one of the most important antioxidants in the body, Sulfur is important in collagen formation, It is involved in the production of some types of amino acids, further more we have to bath daily with sulfur soap, where dermatological diseases are treated, as it treats the sensitivity of the skin, eczema, psoriasis, and various spots. The skin as the hot bath opens the

pores of the skin and cleans them from the accumulated toxins inside, as cold water then helps to immediately close these pores and prevent the accumulation of toxins in them again. Hot water also stimulates the body to produce more quantities of growth hormones, which activate the metabolism and increase the mass and size of the muscles in the body. Furthermore the body must also be covered after showering with Vaseline, which blocks the air from the electronic chips in the body, forcing them to go out to the surface of the skin and thus can be easily removed from the skin furthermore it can disable the electronic chip sensors, as well as the body must also be cleaned with a Dettol, Vaseline or vinegar as an attempt to eliminate and clean the skin cells that affected by biochips and radioactive. You can also use camphor oil, ostrich fat, turmeric oil, pine oil, or castor oil as an antioxidant to raise the body's immunity and to stop the work of nano-sensors electronic chips, and use lemon in the ear to stop the work of electronic chips in the ear and get rid of tinnitus Ear and headache, You can also use lemon, vinegar or sulfur soap as a face mask to stop the work of the biochips sensors on the face, and using white or red Solar for head hair as it prevents hair loss because it has a good effect on removing electronic chips from the head and stopping the work of the biochip sensors, as well as use vinegar or vinegar and salt without adding water to wash the head and hair to stop the work of electronic slides in the head, and it is preferable to isolate patients with chronic diseases in farm or coastal areas away from urban pollution as well Sulfur sea water and iodine help to raise human immunity significantly and improve mental health

9- The headphones should not be used to listen to songs or others, especially 3D songs, as it increases direct contact of radio waves to the brain. In addition, the fashion of the perforation of the skin should not be used whether in the nose, ear, mouth or abdomen or others as it helps to facilitate the penetration of the body from a distance and make a fistula to implant the biochips in the skin

10- Use the Sabona Magnetic Bracelet copper to help relieve pain by calming the nerves. When the signals that express the pain are sent to the brain, the magnetic energy reduces the electrical activity and closes the channels of access of these signals to the brain. The body can heal itself by stimulating the biochemistry in the body. Thus, healing occurs spontaneously, but make sure that you purchase the original Sabona bracelet, as traditional copies may contain mining biochips or just wear a copper bracelet. Or accessories made of copper or silver, as it helps the body gets rid of free radicals. You can also use a copper earplug to prevent gamma radiation from penetrating the ear, or use cotton as an earplug, and to relieve bone pain, you can use a compression bandage, as it limits the effect of the penetration of gamma radiation to the bones, especially The knees with the aim of mining stem cells, You can also use the

Negative pole of the N52 Neodymium magnet and place it on the pain places, or the soles of the feet or above the ankles

4- Raise Awareness of the Preclusion and Treatment of the Nuclear Radiation Contamination by Medicines “as per the Organization of the world health advice”

1- For the treatment of the harmful effects of radiation in the case of doses of less than 200 RIM can be given a medicine that prevents vomiting and gives the patient a dose of cortisone in the vein, but in the case of doses of 200-1000 RIM hope for recovery is possible by intensive care by giving the patient antibiotics. If the number of white blood cells less than 1000 per cubic millimeter to reduce the vulnerability of the natural immunity of the patient and it is desirable to transfer blood cells and treatment of solutions in the case of diarrhea and bone marrow transplant in critical cases

2- When the body is exposed to certain radioactive elements such as cesium and thallium, the treatment is done by the Radiogardex Prussian Blue medicine, which is associated with these radioactive elements and is eliminated through the stool. This treatment quickly eliminates radioactive particles and reduces the amount of radioactive cells that may absorb them.

3- For treatment of radiation syndrome when the body is exposed to some radioactive elements such as plutonium, americium and chlorium, the treatment is done by Diethylene Triamine Pentaacetic Acid (DTPA), which is linked to these radioactive elements, and passes through the body in urine, which reduces the amount of absorbed radiation.

4- In order to determine the type of radiation exposure to make decisions for the treatment of patients, you have to do blood tests and know the changes in blood cells, especially white blood cells, measuring the dose of radiation absorbed through the dosimeter, should determine the location of the radioactive particles in the body through the radiation scan.

5- Potassium iodide tablets can inhibit thyroid absorption of radioactive iodine. When potassium iodide tablets are taken before or shortly after radiation exposure, the thyroid gland is saturated with iodine to reduce the amount of radioactive iodine absorbed and the risk of thyroid cancer, however Potassium iodide tablets do not protect against external exposure to radiation or any radioactive element other than radioactive iodine.

6- Laboratory blood test for periodic verification of the rate of decrease in the number of white blood cells to detect the extent of bone marrow damage and treatment of bone marrow damage by injecting the patient with protein that stimulates the production of white blood

cells. An example of this protein is the promoter filgrastim (Neupogen), sargramostim (Leukine) and pegfilgrastim (Neulasta)

5- Raise Awareness of the Preclusion & Treatment of the Nuclear Radiation Contamination by Surgery

1- It should be noted that treatment with medications, herbs and proper nutrition may be beneficial in the prevention and treatment of the impact of gamma radiation contamination and ionic and electronic accelerators and stopping the work of nano-electronic sensors in the body by 80%, but in critical cases we have to remove the biochips from the body and close the internal opening of the fistula using the Interventional radiology, and there are various types of fistula (head - back - digestive system - reproductive system - colon), furthermore the cupping therapy can help to get rid of free radicals from the blood, but make sure that doctor has a conscience as there are many doctors working on applying the nuclear program and they will not allow to remove the biochips from the body, but they will renew the electronic biochips and register the names of patients in their mining list and therefore it is preferable to use natural treatment in the absence of a doctor who respects the honor of the medical profession, and we must all work to establish medical centers « Specializing in the removal of electronic biochips from the body » and to assure that medical centers are trustworthy and not under the control of the Peaceful nuclear program

2- Check the ear canal there is silver radio chip (Psychotronics Microchips) with a microphone embedded in the bottom of the ear canal, there will be one in each ear, It operates on the VHF frequency and can play video so that the victim can see the forced walking visions and hear artificial sounds, or cover the ear with a plug until you can extract this chip to prevent the waves from reaching, or add lemon on your ear to eliminate the artificial tinnitus “ringing in the ear” and headache .

4- The most effective method is try to detect the biochip locations, but unfortunately these micro simulators difficult to detect through the CT or MRI , but can measure the dose of radiation absorbed through the dosimeter, and determine the location of the radioactive particles in the body through the radiation scan

5- As well as you can remove the small white or black dots on your body infected skin by laser and analyze them at " Material Characterization Lab through "EDS - Energy Dispersive Spectroscopy" and proof that skin samples are contaminated with “silicon, tin, titanium and platinum” while the biochips is made of these materials, as well as you will find a high

percentage of radioactive contamination like “Thorium, Radon, Uranium, Polonium, Plutonium and Radium” , and in regards to the implanted biochips can be treated by removing the biochip from the body and closing the internal opening of the fistula with the interventional Radiology “Thermal Frequency”, however you need to make sure that medical center not under the control of the nuclear program

6 - Raise Awareness of How to Clean the Environment Surrounding the Humans to avoid the Nuclear Radiation Contamination

1- Wear lead rubber clothing to prevent radiation, clean your clothes and bed sheet with Dettol or Vinegar or Sodium salt and be washed at a temperature of up to 60 ° C, and make sure to clean the seating area and bedroom with vacuum to remove the smart dust and radioactive contamination such as uranium, radon and polonium, as well as cover your food and drinks and use 6 levels water filter

2- You should not wear torn or open clothes, whether from the leg, abdomen, shoulder or back, as you help to facilitate the implanted biochips remotely. It is also preferable to wear clothes made of cotton only, as well as bed linens and covers, it must be of cotton to reduce Charging the body with ionic and electronic accelerators that help to interact with the body's nuclear materials and convert them into radioactive materials, in addition to this, they may cause an increase in the electrical energy in the body, which results in electricity shortage when charging the covers made of polyester, which may cause fires and burning houses, especially during sleep

3- Clothes and shoes contaminated with radioactive particles and ionic and electronic accelerators must be removed, and daily showering with very hot water and use dettol, vinegar, ostrich cream, camphor oil, pine oil, turmeric oil or castor oil, which may help to remove radioactive from the skin and stop working Nano electronic chip sensors

4- Make sure to close the toilet, and add sea salt or the used residues herbs on human waste at the bathroom to reduce the emission of radon from sewage and the interaction of radioactive materials and to prevent the attackers from taking advantage of the radioactive materials in the sewage, which is the main reason for deliberately polluting the air, water and food, to obtain nuclear fuel that is enriched by humans.

5- It is preferable to use Quartz Crystal to dissipate the negative energy of gamma rays and absorption of positive energy worn on the body or placed under the pillows or used in lights instead of using energy-saving LED lights and lights containing a transistor that amplifies the

weak signals and turns them into strong signals while it receives weak signals from the heart and brain and amplify the human body, which facilitates the operation of virtual remote surgery, Air-conditioners should not be used and replaced with fans that are less harmful, in addition to that they help to disperse the gamma radiation.

6- Use equipment equivalent to ground pressure (Earthing or Grounding) and you can use salt when cleaning the ground, which will reduce the ground pressure and electric shocks, as well as fill the gaps in the floor tiles as it contains smart dust which is used in energy mining operation

7- Avoid buying any used clothes or electronic equipment while it has electronic medical waste could transfer the chronic disease to the healthy people

7- Raise Awareness of the Nuclear Program's Resistance using Anti-mining Technology Techniques

1- Reduce your use of electronic devices such as computer, internet, mobile and television and turn off the electricity from all home appliances, mobile and the Internet during the sleep period or when not in use, preferably not to use smart devices that contain Android technology or LED energy-saving as they are used as mining devices, as well as add to your internet browsers the following apps "Adblock, Pop up adblock, Nocoins - Coin hiber blocker", furthermore you need to reset and format your mobile, internet and computer in order to change the IP Address and remove the mining programs from the devices, further more you should turn off the Bluetooth feature, the Sync feature, all the privacy settings and Cloud setting,

2- Don't post personal photos on social media or comment on public posters where some mining companies or individuals target citizens through the computer's IP address, which can be known through the published photos. Therefore, Reset or Format must be done for the mobile, the Internet and the computer every period to change the IP address and remove Hacked mining software on the hardware, in addition, a block should be made for anyone in doubt. Also you should change your phone number every period and not register it on any websites as these sites use it in their mining network

3- You can detect the sources of ionizing radiation using the Geiger counter, also use radio frequency jammer, frequency range: 200 - 840 MHZ , GPS , UHF, VHF, GSM , 3G, 4G, 5.8G, LOJACK , CDMA to protect yourself from satellite and GPS tracking and energy mining specially the frequency range 200-840 MHZ, as well as a frequency counter should be used to measure the radio frequency at your home, furthermore you can use electronic bug detectors apps like

EMF Sensor Free and Electronic Bug Detector to detect the areas of the electronic energy weapons at your home or work.

4- Use the Negative Pole of the N52 Neodymium magnet on the implanted biochips, to isolate the electromagnetic waves from the body as well as cover the head and infected body with aluminum foil or wear Iron Hat or lead rubber clothing, you can also disable biochips by using the electromagnetic pulse device “EMP” Electrical Magnetic Pulse

8- Raise Awareness of the Nuclear Program’s Legal Resistance Methods to Protect Human Rights

1- According to the international Nuclear and Radiation Regulatory and Clinical Trial Law , the Nuclear Establishment is committed to carry out radioactive decontamination by their integrated programs for the polluted internal and external radiation of individuals and buildings as it occurs, as well as they committed to coordinate with their authorized energy mining vendors and investors as a telecommunications company, constructions companies and medical centers to pay the compensation and treatment for the people that been harmed by this nuclear program, since the Nuclear Establishment has the name of all vendors and name of the people that been effected by the clinical trials and nuclear program

2- All citizens that harmed by the nuclear program in all over the world must submit cases in the courts or human rights organizations against the Nuclear Establishment, telecommunications companies, constructions companies, medical centers or other authorized mining vendors and claim compensation of up to “One Million” for every person harmed by this program so such illegal investments stop human rights abuses. The main motivation for these illegal investments was that human killing by the chronic diseases and psychological destruction were free of charge due to that victims were not aware of the fact that they were attacked by the invisible nuclear application technology through remote virtual surgery

3- The case can be confirmed laboratory by detection of viral DNA or serological analysis. The presence of viral DNA can be confirmed by obtaining positive results for a test of polymerase chain reaction with reverse transcription when performing the test on at least two samples of the targeted genomes or on a single positive target genome with the sequence of the second target genome identified. Confirmation of the condition with serological testing requires proof of serum antibody production in two samples, preferably 14 days separated by history, by examination (ELISA) or indirect antibody (IFA) method and neutralization assay. It is also used in taking other types of clinical samples to perform molecular testing when necessary,

including blood / serum, urine and stool samples. These samples usually contain low virus titers compared to respiratory samples but are used to confirm cases when other samples are not Sufficient or inaccessible

4- All medical reports should be submitted to the court like medical report of measuring the dose of absorbed radiation through the dosimeter, and determine the location of the radioactive particles in the body through the radiation scan, as well as you can remove the small white or black dots on your body infected skin by laser and analyze them at " Material Characterization Lab through "EDS - Energy Dispersive Spectroscopy" and proof that skin samples are contaminated with "silicon, tin, titanium and platinum" while the biochips is made of these materials, as well as you will find a high percentage of radioactive contamination like "Thorium, Radon, Uranium, Polonium, Plutonium and Radium"

5- You can submit the analysis of the Smart Dust, which consists of (silicon - titanium - tin - platinum) and radioactive materials such as (uranium, radon and polonium) while you can collect them from victims' home as they are deploying them through the AC magnetic field

6- You can also submit to the court an analysis of the samples of electronic chips, the Smart Dust, which consists of (silicon - titanium - tin - platinum) and radioactive materials such as uranium, radon, and polonium dust. The smart dust can be collected from the victims house, as they spread this smart dust in the victims' homes by the magnetic field of air condition, you can also see the chemical and physical parameters measuring the water that are implanted in the bathroom which looks like as crystals

Sixth: Religious prediction awareness of the Masonic Antichrist deception and the World Nuclear War (Armageddon – The Peaceful Nuclear Application for more than 100 years)

Many people recently circulated many lies and misinterpretations of the hadiths and prophecies of the Messenger Muhammad, peace and blessings be upon him, for the tribulations of the world end. They also false the correct concept of the Armageddon saga mentioned in the Bible to serve Masonic interests and the false promotion of the idea of igniting a third world war between Arabs and the West, while there is no need to ignite a third world war as the nuclear war (Armageddon) has already started since the year 1918 and continues until now, but every country is responsible for destroying its economy and their people by themselves through the application of the new world order, which is the implementation of the nuclear program on all peoples in order to control the mind and produce nuclear energy, however what is happening now from military attacks rumors

between some countries is nothing but to increase the weapon market share while the sense of instabilities of the countries increase the desire for buying weapons

This is what the Bible affirms from the prediction of the world end, by talking about describing the war of Armageddon. It was mentioned in the Bible as a nuclear war that people will kill each other all over the world in which will use an arsenal of weapons of floods, fire, sulfur, thunderstorms and epidemics will be used. This is what is happening now since the beginning of the application of the new world order and the nuclear program to all people.

The word "Armageddon" appears in the Bible once in Revelation 16:16. The book of Revelation foretells that "the entire kings of the inhabited world" will be gathered to "the great war of the day, the day of God who is capable of everything" in "the place called in Hebrew Armageddon" --Revelation 16:14.

Will Armageddon erupt in a specific location in the Middle East? No, the battle of Armageddon will not be limited to one region, but will cover the entire land. - Jeremiah 25: 32-34; Ezekiel 39: 17-20 .

It will use an arsenal of weapons: hail, earthquakes, floods, fire and sulfur, thunderstorms, and epidemics. (Job 38:22, 23; Ezekiel 38:19, 22; Habakkuk 3:10, 11; Zechariah 14:12) The Bible tells us that confusion will take place among the enemies of God so that they kill each other, but they will eventually realize that it is God who fights them. - Ezekiel 38: 21, 23; Zechariah 14:13.

And this is what confirmed by the hadiths and prophecies of Messenger of Allah (Prophet Mohammad) for the new world order technology "the Antichrist" in order to implement the peaceful nuclear program on all human and control their mind and where the description came in accordance with what the Messenger described to the tribulations of the world end

Abdullah bin Umar said: While we were sitting with the Messenger of Allah (Prophet Mohammad), he mentioned the Fitna (tribulations), mentioning many of them until he mentioned the Fitna (tribulations) of Ahlaas. Someone asked him: ' O Messenger of Allah, what is the "Ahlaas" Fitna? He said 'It is fleeing and plunder. Then, will come Fitna (tribulations) of Al Sarra'a (pleasure & prosperity): its smoke is under the feet of a man (descendant) from my household, who claims he is following me, but he is not because my Awlyia (followers or loyalists) are those who fear God. Then, the people will reconcile by choosing a man (to be a leader) who will be like a hip-bone on a rib (meaning he will not be able to hold a firm leadership grip). Then, the Duhaima (Dark & Cunning that catches people off guard) Fitna (strife, trial & tribulations) that will not leave anyone without slapping him a slap (testing his

faith); if people say it is finished, it stays longer; a man who is in the morning a Mu'min (Believer) by the evening becomes a Kafir (Disbeliever), until people will be divided into two factions: a faction of Iman (faithfulness in belief) without hypocrisy and a faction of hypocrisy without Iman (faithfulness in belief). When this happens, expect the (Fitna of) Dajjal that day or the next day'." (Sunan Abu Dawud, Hakim, Al-Zahabi, Ahmad, Al-Albany)

The Messenger of Allah warned us of the Antichrist, especially after his death, where everyone will be responsible for protecting himself with the help of God from the tribulations of the Antichrist, where rescue from the temptation of the Antichrist is associated with implementing the justice. Therefore, awareness must be spread among peoples about the symptoms of injury, methods of resistance and healing, confronting the temptation of the "antichrist" nuclear program and preventing them from obtaining any sources of energy production using humans. Until these illegal investments end

The Messenger of God, may God's prayers and peace be upon him, said: "The Euphrates is about to swayed the treasure of gold. Whoever attends it will not take anything from it." Narrated by Abu Dawood (No. 4313) and Al-Tirmidhi (No. 2572), who said: The Messenger of God said: (The world end will not arise until the Euphrates has been swayed by a mountain of gold, and people will fight each other to take it, and it will be killed in every hundred ninety-nine, and every man will say among them: I may be saved.) The gold treasure here refers to mining gold, minerals, and radioactive nuclear waste from wastewater that collected radioactive human waste and artificial rain loaded with atomic dust that was the main reason for swayed rivers like the Euphrates river, "a mountain of gold people fight over," indicating that fighting occurs between people and some of them within the state. The Messenger forbade us from taking this treasure because of its Destruction of the nation, and this is what is happening now from the increase of murders, suicide and sudden death due to the spread of chronic diseases or their death due to floods, hurricanes and artificial earthquakes.

Kindly note that what is mentioned here from the holy books either Bible or Quran are same in all religions all over the world while there are no religion advice people to kill each other to gain gold, furthermore some of the scientists all over the world use the holy books as a reference for understanding more about sciences, as well as the holy books are the main guide from God for human and have the solutions for all our problems.

This research has been developed using trusted resources from around the world, in a way to be simple and summarized (2 hours reading) so to be easy and understandable for all world citizens (age 12+), to raise awareness of all the resistance methods and the rescue strategy of

the masonic nuclear program' terrorism, while God helped me spread his message as a mercy to all the world and translated into more than language and used as a global reference to help fixing the corruption that was spread by the Antichrist's followers throughout the world!

Please note that Copyright, translation, publishing, and distribution for free to all countries of the world, I donate this research for all world peoples, which took more than 2 years to read thousands of researches around the world to reach the full truth that everyone has hidden to protect the Masonic entity, feel free to Share at any website, blog, social media to Bring Awareness to Public & Limit the Destruction of The billions of Victims Life around the World, and to Stop Using Humans for the Nuclear Energy Production.

"Noah Global Peace"

Written and prepared by: Sarah Youssef

To check the latest update and more information and sources and the Micro stimulator Biochips Samples that mentioned at the medical report, please visit the following website and you can publish the article in all media and social networking sites to raise awareness
